

## Conference Description

This education program is designed for nurses and other healthcare providers who are interested in leadership or are in leadership positions. The goal is to provide current information on planning and implementing a Shared Leadership structure within your organization. Content will explore how to transform care at the bedside while empowering and engaging staff. Contact hours will be awarded upon attendance of entire event and completion of evaluation.

### Course Objectives

At the conclusion of these sessions the participant will be able to:

Gain knowledge on shared leadership outcomes for nursing practice and work environment

Discuss shared leadership models-development and implementation strategies and outcomes for practice

Discuss the impact of shared leadership on the roles of the formal leaders

Identify resources and best practices in shared leadership for application in participant's own practice setting
